# Civil Infrastructure

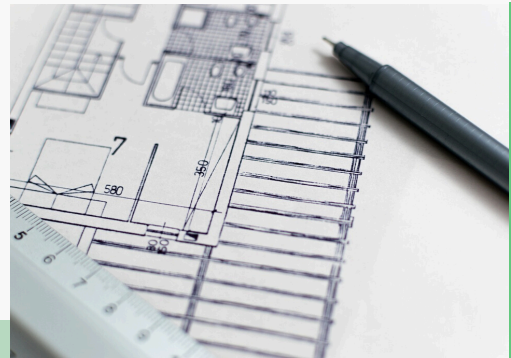

## Comprehensive Civil Infrastructure

We provide comprehensive civil infrastructure services, including the construction of foundations, earthworks, drainage systems, and more. Our focus on precision and quality ensures that all civil infrastructure projects are completed on time and within budget, supporting the long-term functionality of public and private developments.

# Building Construction

Innovative Building Construction

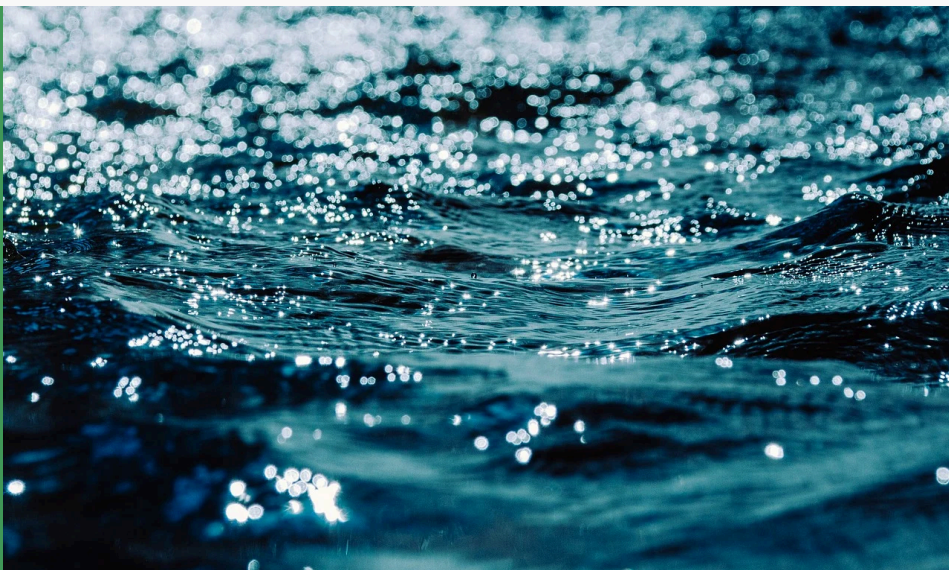

Al Fatima offers full-scale building construction services, from residential and commercial buildings to industrial facilities. We manage every aspect of the construction process, ensuring that our projects are not only structurally sound but also aesthetically pleasing. Our commitment to quality craftsmanship and sustainable practices makes us a trusted partner for any building project.

# Waste water management

## Sustainable Waste water Management

Al Fatima designs and constructs efficient waste water management systems that meet the needs of growing communities and industries. Our services include the development of treatment plants, pipelines, and distribution networks, all designed to ensure the safe and sustainable management of water resources.

# Enabling work

## Foundational Enabling Services

Our enabling work services prepare your project site for safe and efficient construction. We manage site clearance, excavation, ground stabilization, and temporary works, ensuring a smooth transition to the main construction phase. Our expertise in this area minimizes risks and delays, setting a strong foundation for successful project execution.

# Landscaping

## Landscaping Excellence

Transform your outdoor spaces with Al Fatima's expert landscaping services. We design and implement beautiful, functional environments with features like planting, hardscaping, and irrigation. Enhance your property's appeal and usability with our tailored solutions.

# Roads And Bridges

## Pioneering Roads and Bridges

Al Fatima is experienced in constructing and maintaining roads and bridges that meet the highest standards of quality and safety. We deliver durable and efficient transportation infrastructure, from highways and urban roads to complex bridge structures. Our team ensures that every project enhances connectivity and contributes to regional development.

# Waterproofing works

## Advanced Waterproofing Solutions

Our waterproof work services protect structures from water damage, ensuring long-term durability and performance. We use the latest materials and techniques to provide effective waterproofing solutions for roofs, basements, tunnels, and other critical areas. Al Fatima's waterproofing expertise helps prevent costly repairs and extends the lifespan of your buildings and infrastructure.

# Oil And Gas

## Expert Oil and Gas Solutions

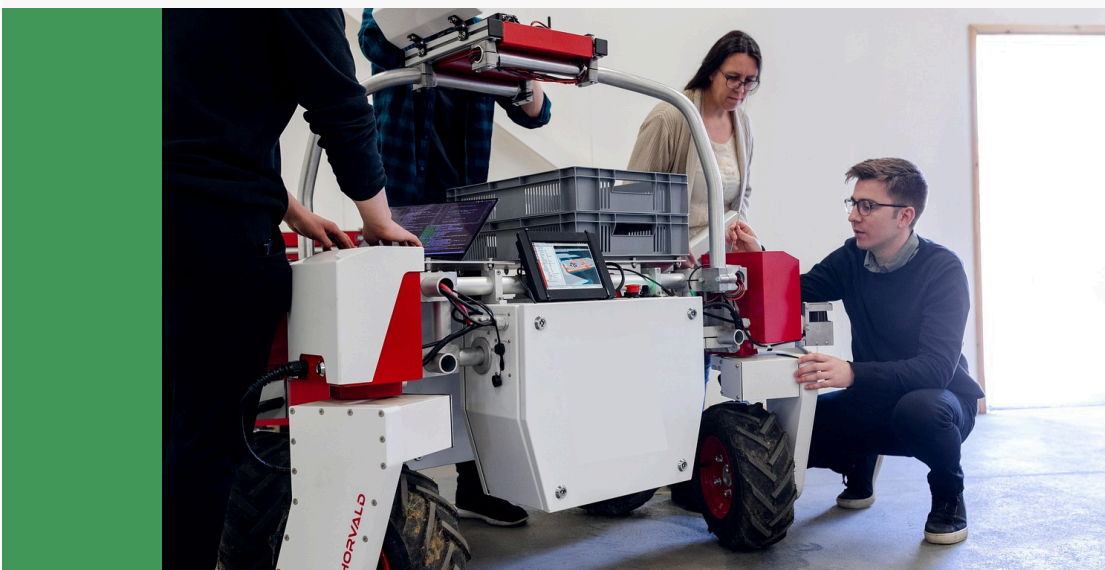

We provide specialized services for the oil and gas industry, including the construction of facilities, pipelines, and storage tanks. Our team is well-versed in the stringent safety and regulatory requirements of this sector, delivering projects that are both efficient and compliant. Al Fatima's oil and gas services ensure the safe and reliable operation of critical energy infrastructure.

# Electro- Mechanical

## Precision Electro-Mechanical Services

We offer comprehensive electro-mechanical services, including the installation and maintenance of electrical and mechanical systems in buildings and industrial facilities. Our team is skilled in handling complex systems, ensuring that all installations are safe, efficient, and compliant with industry standards. Al Fatima's electro-mechanical services are designed to support the smooth operation of your projects.

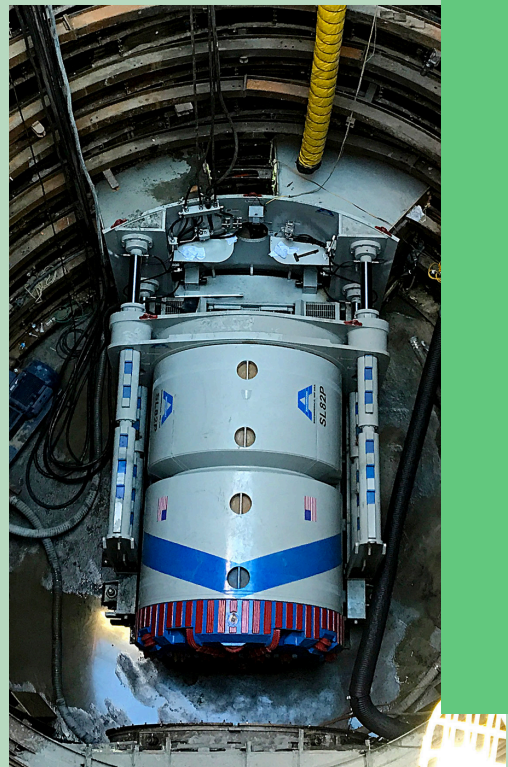

# Micro-tunneling

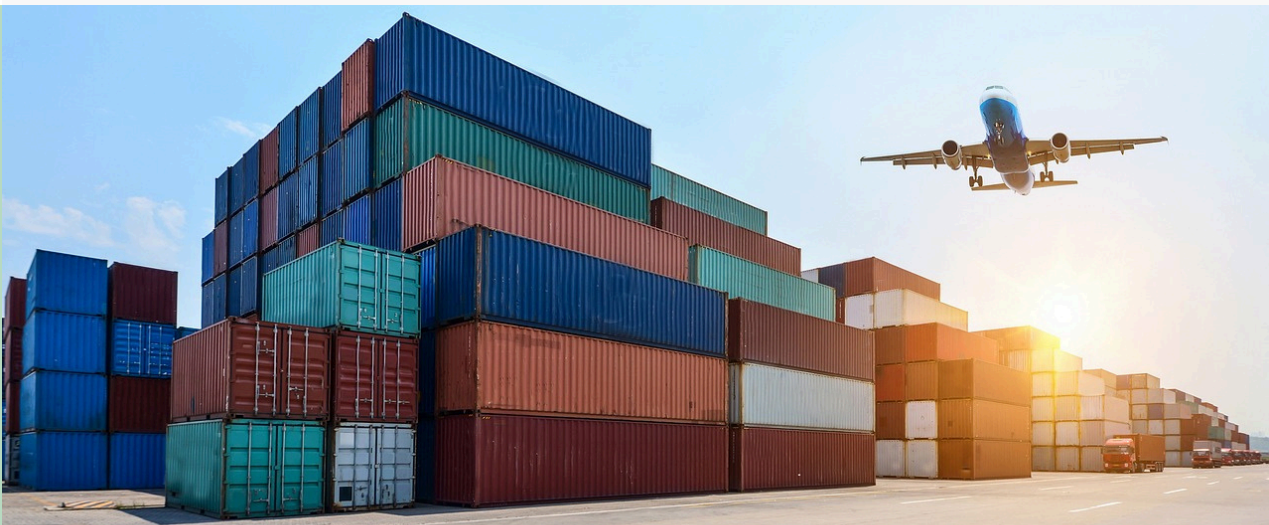

## Cutting-Edge Micro-Tunneling Technology

Al Fatima specializes in micro-tunneling, a trenchless construction method used for installing pipelines under obstacles like roads, railways, and rivers. Our micro-tunneling services are precise and minimally invasive, reducing surface disruption while delivering accurate and efficient pipeline installation. We leverage advanced technology to execute challenging projects in difficult environments.

# Trading

## Global Trading Excellence

Al Fatima specializes in sourcing and supplying high-quality construction materials, equipment, and industrial goods. We ensure timely delivery and competitive pricing, making us a reliable partner for all your project needs. Our trading services include a wide range of products, from raw materials to specialized tools and machinery, tailored to meet the specific demands of the construction industry.

# Thank You

## Because, we're here to help

We appreciate your consideration of Al Fatima for your project needs. We look forward to the opportunity to work together and deliver exceptional results.
